Part I – General Information

1. THE FEE REMISSION SCHEME

It is the aim of the Council of St. Paul’s Co-educational College to admit students from the widest social spectrum. The Council has therefore devised a Fee Remission Scheme to offer full or partial fee remission to needy students who study in St. Paul’s Co-educational College or St. Paul’s Co-educational College Primary School (“the College”). The Scheme is means-tested and has the following overriding principles and basic criteria.

Overriding Principles of the Scheme:

**Transparent:** Clear and simple rules to be published so as to enable prospective parents and the public to assess their eligibility for fee remission

**Effective:** Sufficient to alleviate genuine financial hardship

**Fair:** Provide help only to those who are genuinely in need

**Efficient:** Does not impose a big administrative burden on the College

2. BASIC CRITERIA FOR FEE REMISSION

Five Categories of Fee Remission

2.1 A child from a family whose family disposable income is at or less than the benchmark disposable income would qualify for 100% fee remission.

2.2 A child from a family whose family disposable income exceeds the benchmark disposable income by no more than HK$90,000 would qualify for a fee remission of HK$40,000 (for Secondary School) or HK$48,000 (for Primary School), and the fee payable per year would be HK$12,000.

2.3 A child from a family whose family disposable income exceeds the benchmark disposable income by no more than HK$180,000 would qualify for a fee remission of HK$28,000 (for Secondary School) or HK$36,000 (for Primary School), and the fee payable per year would be HK$24,000.

2.4 A child from a family whose family disposable income exceeds the benchmark disposable income by no more than HK$270,000 would qualify for a fee remission of HK$16,000 (for Secondary School) or HK$24,000 (for Primary School), and the fee payable per year would be HK$36,000.
2.5 A child from a family whose family disposable income exceeds the benchmark disposable income by no more than HK$360,000 would qualify for a fee remission of HK$4,000 (for Secondary School) or HK$12,000 (for Primary School), and the fee payable per year would be HK$48,000.

2.6 A child from a family whose family disposable income exceeds the benchmark disposable income by more than HK$360,000 would not qualify for any fee remission.

2.7 If more than one child from the same qualifying family is attending the School(s), the amount of fee remission would be increased to the next category of family disposable income in respect of the additional child(ren). For example, if the family has three children attending the Secondary School and its family disposable income falls within the third category of fee remission above, the first child would enjoy a HK$28,000 fee remission whereas the other two children would each enjoy a HK$40,000 fee remission.

3. CALCULATION

3.1 The Benchmark and Family Disposable Income

(a) The benchmark disposable income will be $180,000 per annum for a household of up to 3 persons and it will be reviewed from time to time. If the actual number of persons in the household (defined as the parents, unmarried siblings and grandparents of the student living in the same residence) exceeds 3, the benchmark disposable income would be increased by $90,000 for each additional person. (Please refer to Appendix I)

(b) Family disposable income is defined as the total annual income of the parents from all sources (see below) as well as 40% of any income earned by other family members normally living in the same residence for at least 6 months during the year after deducting the cost of rental of the principal family residence or the amount of the mortgage payments (excluding any lump sum payments and additional payments in excess of scheduled normal monthly repayments) relating to the purchase of the principal residence.
Applicant is required to report the sources of his family income as listed below:

</table>

Where the applicant and his/her spouse have assets (excluding the value of the family’s principal residence but include other properties, net of related outstanding mortgages), in excess of $500,000, the amount of family income is deemed to be increased by an amount equivalent to 10% of the value of assets in excess of $500,000. The value of assets is defined as the sum of net positive value of each individual asset (gross asset value net of its related pledged liabilities).

The amount of family disposable income will be based on the preceding year. No adjustment to the fee remission will be made for any increase or decrease in family disposable income in respect of the academic year once the application has been approved except where material misrepresentation has been discovered.
To meet the needs of students whose family disposable income has deteriorated significantly since the preceding year ended 31 March, there is an emergency financial assistance arrangement. Please refer to paragraph 7 below for details.

3.2 Fee Remission Account

(a) A Fee Remission Account would be set up to handle the receipt and disbursement of funds concerned. If the application of the above policy results in a deficiency in the fee remission account, the shortfall will be financed by a loan from the Council. The loan would be repaid out of future surpluses or may be waived by the Council.

(b) If the application of the above policy results in a surplus in the fee remission fund, the balance will be carried forward to the following year. If the carry forward balance exceeds 75% of the amount of the annual input into the fund, the School Executive Committee (SEC) may utilize any excess in granting scholarships to students based on academic merit and achievement without regard to the financial circumstances of the awardees.

3.3 Staff

Staff members would be automatically entitled to a fee remission of HK$16,000 (for Secondary School) or HK$24,000 (for Primary School), the cost of which will be borne from Council funds and not from the fee remission account. The staff member would not be precluded from applying for fee remission under the general scheme referred to above (except that if the staff member is entitled to 100% fee remission, all cost would be charged to the fee remission account).

3.4 Review

The above rules and policies will be reviewed from time to time and be amended by resolution of the Council on the recommendation of the School Executive Committee.

The applicant is reminded that it is an offence to obtain property/pecuniary advantage by deception. Any person who does so commits an offence and is liable on conviction to imprisonment for 10 years under the Theft Ordinance (Chapter 210 of the Laws of the Hong Kong Special Administrative Region). The applicant and his/her family members are requested to co-operate with the staff. Intentional obstruction to the staff in the course of their verification, concealment of information or failure to provide the information/clarification as required may lead to the cancellation of the fee remission and the full recovery of the fee remission already granted and even court proceedings.
